GENERAL PERSHING REVEALS FURTHER ADVANCE FOR MEN

(Continued From First Page.)

Meuse and the Bar river has now been liberated by the First army in close co-operation with the French Fourth army.

The guns of all calibers captured by the American First army since Nov. 1 now exceed 250, while a partial count of captured munitions and material shows more than 2,000 machine guns, over 5,000 rifles, 75 trench mortars and many antitank guns.

Gen. Pershing also said that a regiment of American infantry particularly distinguished itself in the final victories in Italy. He had reference to the 32nd regiment, Ohio national army troops.

HAIG'S MEN CONTINUE ADVANCE UPON FRONT

LONDON, Nov. 5.—The British troops last night continued their advance upon the German front south of the Mons-Condé canal.

FRENCH PROGRESS GROWS SPEEDIER, PARIS SAYS

PARIS, Nov. 5.—With ever increasing speed the French troops are forcing the Germans back north of the Aisne and on to the system of the front which the French are fighting over, according to the war office announcement last night. An advance of 10 miles has been made at certain points.

FLEETS TO ANCHOR AT CONSTANTINOPLE

LONDON (via Montreal), Nov. 5.—The allied fleet will anchor off St. Sophia, Constantinople, on Saturday, according to information received in London.

GERMANY STALLS FOR MORE TIME

Plans Would Cloud Armistice Issue—Capitulation Is Certain.

PARIS, Nov. 5. (3:45 a.m.)—The text of the wireless exchanges between Marshal Foch and the German high command shows signs, morning newspaper decide, that Germany is still determined to cloud the issue in every possible way, apparently with the object of at least gaining time, if they can not gain anything else.

The Matin says: "Berlin and Germany are striving rapidly toward a revolution. The substitution of a responsible secretary of state for Admiral Goetz is inspired by this grave peril. The commission sent by the German government must have with it a man able to sign immediately without referring to Berlin. An attempt must be made at any price, in the phrase of Prince Maximilian of Baden, to open negotiations in favor of peace."

Needless to say the German government is the victim of persistent illusion. Marshal Foch will refuse to come out of his province, which is strictly military, and he also will certainly refuse any suspension of hostilities until the armistice is accepted."

Other commenters write in the same vein, and invariably conclude by asserting that German capitulation is not far away.

PAY-UP CAMPAIGN IS PROVING BIG SUCCESS

Very gratifying returns from the pay-up campaign being conducted by the Retail Credit Men's association were reported by members attending Thursday's luncheon of this organization. Results immediately following initial advertisements of the campaign Sunday and Monday were really surprising, according to those reporting.

The campaign, which is being conducted through the newspapers, will continue six weeks, and, on the basis of present rate of improvement, indicates that the community will receive excellent education in the gentle art of paying up large number of members subscribed funds to the Home of the Good Shepherd, a luncheon appeal from W. S. Lacey, serving on one of the committees raising money for that institution.

SCANT FOOD AND CRUELTY OF OFFICERS IS BLAMED

THE HAGUE, Nov. 5.—Scant food, bad treatment by their officers and exasperation caused by the collapse of Germany culminated in a movement of revolt in the German navy. The revolt broke out at Kiel Nov. 3. Sailors ashore, aided by workmen, seized the fort and arsenal. The movement spread rapidly to the crews on warships in the roadstead.

On Nov. 4 the labor unions proclaimed a general strike. On the fifth the revolt reached Wilhelmshaven, Heligoland, Borkum and Cuxhaven. Almost the entire fleet is now in revolt.

The mutineers have seized the wireless and are communicating with each other. The officers are powerless. A mutiny remains loyal. The sailors' grievances at sea are ignorant of the armistice proposal, this news having been hidden from them.

AUTO THIEVES BUSY: FIVE CARS MISSING

Auto thieves operating Thursday night and Friday morning had a gala time. Five autos are reported missing. Whether or not premature celebration was responsible police are unable to say.

Among those stolen was the car of former sheriff Mike G. Tate, taken from Court avenue and Second street. Others reported missing belong to A. Crawford, 539 Linden avenue, from Front street and McCall avenue; Lewis Moss, Peabody hotel, two; Roy Barrett, Peabody hotel, and Mrs. W. H. McLean, 341 Peabody avenue, from Second and Monroe.

The cars of Barrett and Mrs. McLean were found at an early hour Friday near the uptown streetcars. The joyriders had abandoned them in perfect condition.

NAMED RURAL CARRIER.
BLUE MOUNTAIN, Miss., Nov. 5. (SPL)—Prof. Charles L. Howard has just received notification from Washington of his appointment as rural carrier on R. F. D. No. 2, to succeed W. A. Gurney, who recently tendered his resignation to the department to accept a position as a plantation manager at Clarksdale, Miss. Prof. Howard is now principal of the high school at Catching, Miss.

CHATTANOOGA WAITED FOR ASSOCIATED PRESS

CHATTANOOGA, Tenn., Nov. 5.—This city, unlike many throughout the country, refused to accept the reports that an armistice had been signed with Germany, because it was unconfirmed by the Associated Press. There was no attempt at demonstration, nor was there any undue excitement caused by the false reports. Many soldiers from Fort Oglethorpe were in the city during the day, but paid little attention to the rumors in circulation. Efforts of a few excitable citizens to suspend business and begin a demonstration were unheeded by leaders of commerce and industry.

FLU SPREADS OVER CIVILIZED WORLD

Germ Eludes Bacteriologists and Health Authorities Are Baffled—Most Serious Epidemic in Years.

The influenza epidemic continues unabated. Its ravages are not confined to this city or state or even to the United States, but it is spreading over the civilized world. It has baffled medical skill to an unusual extent and has claimed more victims perhaps than any other epidemic in a score of years. The germ has eluded the bacteriologists and medical men now agree that the best cure is prevention.

The surest prevention is to build up the bodily powers of resistance and to get the system in the best physical condition possible. It is now universally agreed that it is possible to perfect the powers of resistance of the human system so that it can throw off almost any infection not causing Spanish influenza.

It has been discovered that persons who are weak and run down are the earliest victims, and if you find yourself tired or weak and losing flesh, or if you are in a generally run down condition and below your normal weight, this warning should be heeded promptly.

If you are in this condition nothing on earth will build you up and strengthen you save the after-effects of Tanlac. The most powerful tonic properties known to science. As a reconstructive tonic and system builder it is without an equal and contains the very elements needed by the system to give you fighting strength to ward off the influenza germ. This is a statement of facts and is supported by the recognized authorities and references works, including the United States Dispensary and the Encyclopedia Britannica and leading textbooks used in the school of medicine. This statement is further proven by the fact that millions of persons who have actually taken Tanlac have testified to its extraordinary merit as a medicine, and by the fact that Tanlac is today having the greatest sale of any tonic on the American market, over Eleven Million bottles having been sold within the past three years.

Tanlac is also the ideal strengthening tonic for persons who are suffering from the after-effects of influenza, Grippe or bronchial troubles and hundreds of thousands are using it daily with the most gratifying results.

In connection with the Tanlac treatment it is necessary to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included with every bottle of Tanlac.

Tanlac is sold in Memphis exclusively by "Wells" Pharmacy (successors to Jacob's Pharmacy), corner Main street and Union avenue, and Wagon's Drug Store in Gayoso hotel block. adv.

PARIS MAKES PUBLIC DETAILS OF ORDERS TO LET HUNS IN

PARIS, Nov. 5.—German grand headquarters yesterday requested allied grand headquarters by wireless to permit the passage of the German delegation for armistice negotiations through the lines. The order was given to cease firing at the front at 3 o'clock in the afternoon until further orders.

The German wireless message asking for an appointment to meet Marshal Foch, says: "The German government would congratulate itself in the interests of humanity if the arrival of the German delegation on the allied front might bring about a provisional suspension of hostilities."

The documents published last night follow:

There was received the seventh of November at 12:30 a. m. the following from the German high command by order of the German government to Marshal Foch:

The German government, having been informed through the president of the United States that Marshal Foch had received powers to receive accredited representatives of the German government and communicate to them conditions of an armistice, the following plenipotentiaries have been named by it:

Matthias Erbschler, Gen. H. K. A. Winterfeldt, Count Alfred von Oberndorff, Gen. von Gruenert and Naval Captain von Sölv.

The plenipotentiaries request that they be informed by wireless of the place where they can meet Marshal Foch. They will proceed by automobile with subordinates of the staff to the place thus appointed.

Orders were given to cease fire on the front at 3 o'clock p. m. until further orders.

On Nov. 7, at 1:25 a. m. Marshal Foch sent the following to the German command:

If the German plenipotentiaries desire to meet Marshal Foch and ask him for an armistice they will present themselves to the French outposts by the Chimay-Fourmies-La-Capelle-Guise road. Orders have been given to

SAVE FROST-BITTEN COW PEAS AND HAY

Frost-bitten cow peas and sorghum made into hay are not dangerous to animals if it is converted without rotting or molding according to H. M. Cottrell, agricultural expert for the Chamber of Commerce farm development bureau.

"Thousands of acres of cow peas and sorghum have been killed by the frost," he states. "The growers are anxious to make hay of the feed but there is a general impression that the hay from frost-bitten forage is unsafe to feed."

"There is no danger from feeding hay from frost-bitten plants if they can be made into hay without rotting or molding. Moldy hay kills horses and mules so often that it is never safe to feed it to these animals. The mold does not kill cattle so often and unless considerable of the feed is moldy or rotten, it may be fed with comparative safety to them."

"It is difficult to cure frost-bitten forage because the frost kills the leaves. In ordinary hay-making, the plants become dried life hay chiefly by the water in them being carried off into the air by the leaves. Frost

kills the leaves and dead leaves do not throw off the water. The moisture has to slowly evaporate through the stems.

"For this reason it takes longer and more skill to make hay from frost-bitten plants. Sometimes rains come so often that the plants never get dry enough to make hay. It is favorable and the forage is handled so as to dry it out as fast as possible, fairly good hay may be made from frost-bitten cowpeas, sorghum and other green forage."

JUNIOR MARINE SCOUTS RESUME ACTIVITIES

With the lifting of the influenza ban, activities among local companies of American Junior Marine Scouts have been resumed.

The noncommissioned officers' training school at marine recruiting headquarters has been reopened and the companies are turning out for regular drill. Company A will hold its regular drill meeting in the engine house park on Front street Friday evening.
